

PROJECT FOLDER STRUCTURE

Project Name	Web Phishing Detection
Team ID	PNT2022TMID43023

Steps for project folder structure:

- ✓ **“Flask”** folder contains two sub-folder static and templates. Static folder contains the style sheets used.
- ✓ **“Templates”** folder has the html pages.
- ✓ **“app.py”** is the python script for server side computing.
- ✓ **“index.html”** is the home page which should be used for initiating application.
- ✓ **“inputscript.py”** has all the parameters of evaluation for a URL.
- ✓ **“Phishing-Website.pkl”** is the model file which you have to build.
- ✓ **“dataset-website.csv”** is the dataset.
- ✓ **“Project2.ipynb”** is the training notebook.
